

Athena's Workshop is proud to partner with these schools.

RENAISSANCE SCHOOL

The staff and students at White Swan High School are committed to the best instructional practices. Our staff understands that students have to intrinsically want to learn. We are committed to sparking our students' desire to learn by providing positive learning *experiences* that are designed to inspire, intrigue, and last a lifetime!

Renaissance School is a college preparatory high school for high ability students in the arts, sciences, and/or humanities. We emphasize both broad and deep interdisciplinary learning through a balanced program equally strong in the arts and academics. Our strength lies with students who want to maximize their potential and make the most of their high school experience. Renaissance students appreciate academic and artistic rigor, and are also able to collaborate with classmates and faculty.

The purpose of Montessori School of Alexandria is to provide an early education program in which the foundation for a lifetime of creative learning is developed effectively and efficiently in the child. More specifically, MSA strives to develop a learning environment within the school to surround the child with maximum motivation and opportunity to learn and achieve in the direction that is consistent with their individual level of maturation.
